J. T. Lumley, Esq.,
'Hartland',
Blackberry Lane,
Potterne.

Dear Mr. Lumley,

Further to recent correspondence concerning ties for the County Golfing Association, we now have pleasure in enclosing an artist's sketch which indicates the way in which the proposed design would come up. It is possible that the background may be rather lighter than you have anticipated, but this can easily be corrected, should you so desire, as well as the colours of the motif, at present in white and scarlet.

The time for the cutting of a weaving card, and the production of a woven heading for your inspection, will be approximately 6 weeks, and on confirmation a further 10 weeks for producing the material and making up the ties, which would bring this project into the early New Year, although we would use our best endeavours to have some available for Christmas.

Prices are given below, and we should now be glad to have your comments on the sketch submitted, so that we may carry the matter further, if this is approved.

Assuring you of our best attention at all times.

Yours faithfully,
R. Kemp

Back Page

contd:-

County Golfing Association Ties.

Design as artist's sketch enclosed.

All silk. 23/6 each.

Terylene. 17/6 each.

These are standard prices for these qualities in this type of design, but if you decide to have a total quantity of approximately 12 dozen, either in one material or assorted over both, these would be substantially cheaper in bulk.
